

Leadership Reflections

The Nature Paradigm

**Mr. Harsh Piramal, Trustee Conservation Wildlands Trust
And
Mr. Shrikant Bachhav, Founder Eco-Jeevan**

Leadership Reflections

The Nature Paradigm

**Look Deep into Nature and then
You will understand everything Better**

Purpose:

- ***Homo sapiens* are a blessed species- Equipped with intellect & logic, they have evolved faster than any other species. In this journey of evolution, humans have observed nature & to achieve this progress man has been inspired by the boundless wisdom that nature offers.**
- **The flip side of this progress is that man has distanced himself from nature to achieve sustainability based on technological advances. We tend to overlook a simple fact-**

Nature will survive without man, but man cannot survive without Nature!

- **The need of the hour is to create future-ready, environmentally conscious organizations with dynamic leaders armed with a new leadership perspective.**

Some of the Best advice you will ever hear will come from the Forest!

About LEADERSHIP REFLECTIONS – THE NATURE PARADIGM

- **Innovative leaders who can balance innovation with performance & experimentation with practicality will henceforth be crucial for organisational growth.**
- **This close-to-nature ‘Experiential Learning’ journey is designed to guide participants into a transformative leadership paradigm.**
- **The boundless wisdom & diversity inherent in Nature will inspire leaders to drive organisational evolution & innovation for a future ready organisation.**

Our workshop is a blend of-

- **Guided Nature Trails**
- **Forest Therapy**
- **Hands-on experience of a creative way of life.**
- **Brain-storming sessions**
- **Knowledge-sharing**
- **Community connect**
- **Understanding yourself (Personality Assessment)**
- **Personalised inputs about Personality Test.**

Brainstorming

Nature Trails

**Community
Connect**

**EXPERIENTIAL
LEARNING**

Methodology:

- **Organisations worldwide are expressing an ever-increasing desire for authentic, mindful leadership. This intensive program provides an insight into the systems of Nature & triggers a paradigm shift in the leadership thought process.**
- **This workshop goes beyond the prevalent trend of technology driven classroom sessions & focuses on outdoor activities, self-reflection, hands-on activities and emphasises experiential learning.**

Program highlights-

- **Structured debriefing**
- **Connecting with nature**
- **Engaging all five senses**
- **Mindful walk in the forest**
- **Witnessing sustainable lifestyle of the forest community**
- **Brainstorming on novel ideas**
- **Scripting your journal**
- **Implementing the laws of nature to organizations**

Cultivate, Nourish & Catalyze

Conscious Leadership

Who Should Attend:

- **Leaders from all walks of life who are eager to understand and explore new paradigms to build organizations geared for the future.**
- **Leaders who desire a deeper understanding of how to access and nurture their own inner creativity and try to imbibe & implement the wisdom of nature.**
- **Leaders who now understand that a new level of consciousness is required to deal with the current challenges in order to build future-ready organisations.**
- **For all professionals and entrepreneurs who desire a new dimension for their work.**
